“ Dear Family of Brian:

*I am so saddened to hear of Brian's death and wanted to express my sympathy to you, his family. I met Brian in junior high school, as he was a grade school friend of Nancy Havens. Nancy and I were "sister-friends" from the time we were 12 years old until her death in 2015. Brian, Nancy and I were close into some of our high school years; then reconnected when Nancy and I transferred to the University of Wyoming in Laramie. Brian's love for nature and animals was a common bond for us (the three of us loved hamsters). I remember going hiking with Brian and just having long talks about life. He was loyal. A few years ago, he went to visit Nancy and the two of them just delighted in one another's company. His going to see Nancy made such a difference in her life.*

*May God comfort and be present as you mourn.*

*Sincerely,  
Dianne (Geiger) Brooke*
