“ We are truly saddened by your passing but rejoice in knowing there is no more suffering and pain. When we first met you and Betty we didn't know we would become friends, and best friends then sisters and brothers. What a joy you brought to Verdell's life and we will never forget you and all the jokes you told and the way you could move when two stepping across the dance floor. It was a great pleasure in knowing you and we are really going to miss you. Betty don't forget you'll always have a place to come and visit. We will be praying for you and we love you very much.
