 Susan Geary

“ Too many great memories to list, he was the big brother I never had. Favorite memory will always be him teaching me to ride a motorcycle. It's a miracle I survived and the look on his face when it finally stopped after narrowly missing a ditch, priceless! RIP Woody. See you on the flip side. "Susie"

“ Woody wrote in his letter was it God or fate that put us together 50 years later. Whatever it was. For me to speak with for a few short weeks was a blessing. RIP Woody.

“ As Woody said in a letter to me. Was it God or fate that we connected again after 50 years. All I know it was a blessing for me to speak with him for a few short weeks. RIP. Woody.
