Due to Covid, family was unable to visit Heather this made it very hard on her, especially not being able to see her mom, as they were very close. It was also hard on Heather not being able to see her fiance'. Heather loved everyone and would tell you every time she talked to you or saw you. Never without a smile on her face, even while going through all the health problems and pain. God called home a truly special Angel who will be so missed but never forgotten by all who knew her.
