“ I went to Franklin elementary with him.... We had the same class, Mrs McCone (4th grade) , and I had so much stress because I was in and out of Foster Care. He gave me my first kiss. It was something I treasured then, till now. I just learned today that he died.....(1/07/2020) after having a fb friend request to him still be pending after so long. I wish he had responded. I wish we could have talked as adults. I wish I had not left Kansas due to adoption. He and his brother Albert we're good childhood friends to me. My condolences to his father (thanks for your service, and sacrifice.) And his mother and brother. My heart weighs for you. God bless you, may you find comfort, and may the Lord give you peace in Jesus name. Amen.
