“ Matt called her momma..But it took awhile to gain that kind of relationship. Jodi would tell us like it is. And straighten us up like a good mom would. We love all our moments with Arabic service and unassigned territory trips. To visiting at her house and sharing spiritual gems with each other..she also shared photos of her younger days..And let me tell ya her in a bikini on the back of a motorcycle was unexpected...always pictured her delivering our final hard hitting message together..because she would say..let's go..so now look forward to telling her how it went and getting busy preaching on the other side..love her lots..see ya soon momma..

“ Age was just a number to grandma. She was always young at heart. One day my sister and I went sledding in grandma's yard (she lived next door). We had only been out there for a few minutes and out came grandma to sled with us. Just one of the many memories with her that I'll treasure.

Jody always had a smile and was a joy to be friends with. Spending time in service was always a hoot. She is sorely missed. But hopeful will be with us again in paradise soon
