“ He was an awesome friend I met online while playing world of warcraft, had many great ideals of life in his own perspective and fundamentals of life. We and some of his friends within the game used to play often together online and used to give ourselves sometimes gifts/advice without notice just for beign friends even if we didn't know the person in real life but consider the person thru the pc screen as a friend, a true friend. I know, he will be missed by his family-his sister. brother, nieces, nephews and so many other relatives related to his family tree. Even his close friends that knew him well. And even tho he has passed away its good to at least remember the times we had together with him as a friend or family member with him, thru stories and still keeping in touch with them, as soo not many people still do that. To reminence on his memories we had with him in life or thru game. And Great Condolences to all his Family members and relatives.  
May GOD Bless us all,  
cause this is the fate that  
awaits us all in the long end of life
