“ I love you dad...❤️

“ Joseph Woznicki is my Dad, I just keep seeing my pop in the living room in the house in phoenix where I grew up, sitting on a stool playing his guitar. I've never in my life seen anyone look so at peace as though he had freed himself from binds of earth itself. This is more than just a memory to me, this is a goal .If you love something so much that it can take you to this place, this place my pop could escape to. Don't allow anyone or anything try to stop you. You can't go back, its a one time deal. I never saw that peace, that height of happiness and contentment. That calm. Never again in my Fathers face. My goal is to find that place and if I do I think maybe I'll find him there to, there was just to many things I hadn't said to him. I Love You Pop hope I can find you again. Your far from perfect son Stephen.
