“ Sue was the mother of our children, and without her in my life I would of been denied the honor of being a father to three truly beautiful, talented, and confident daughters. even though our marriage ended, I want our children to know that each and every time we were given the news, it was recieved with a hearty yell of joy, and and a desire to give them a life of love. Sue loved and adored her children,, and I know her girls will always remember the good parts of thier mother and I hope, they can forgive any bad. And it's because of my knowledge of the life that she had to grow up in, and the past that. Was her life, that made me admire, love, and always amazed me that she was the woman she was, Sue, you'll always be remembered, and missed, but one thing I know, there will never be another one like you again in our lives, I'll make sure your grand children will know you , for as long as I'm around, see you one day again, and Goodbye
