“ *She NEVER let me drive her car until I was over 25 years old then it was her 89 New Yorker that she thought the transmission was out but I put some Lucas's trans fix and 24 hours later it drove like a new car for a few more years! She ended up giving it to me.*

“ *Any time I would bring someone home to introduce to mom I always had to make sure they had a job or they had to say they had a job. She didn't care for lazy people. I used to always giggle about it. She was so silly!!*
