“ I started one of my first jobs while in in high school in 2014. Ken introduced himself to me, and brought complete comfort & reassurance for my nervousness, and spoke positivity into our shifts. He was a manager, and a good one! I always drove home happy from my shift, to talk, laugh, and make silly jokes with Ken. It Was my highlight. He was so grounded, heartfelt, and always spoke about his daughters. He was very proud of them and always treated me like he truly cared. He made a real different in such an environment where managers don't normally get credited. I was blessed to have met him, and my thoughts and memories of him were full of happiness and love. He was always a “it is what it is guy”. And I loved that. He was a good man. Rest in peace Ken. □ you are very missed.

“ The big brother I always wanted. His smile and laugh were infectious and did he know how to make me laugh(usually by making up songs about Craig)! He introduced me to Grand Funk Railroad and began my life long love of the Beatles. He gave the best hugs in the entire world. Never was there ever a sweeter soul like my Kenny. Forever in my heart.....One fine day until we meet again!
