

Kimberly Rose Bauer

April 9, 1958 - November 5, 2022

Kimberly Rose Bauer was born on April 9, 1958 to Francis Jean Rowlette and Jerry Lee Seever, she also had a little brother Jerry Lee Seever jr who are all no longer with us. She has another brother John Seever. Kim had grown up in St Joseph, Missouri. She had graduated from Ventura High School in California. Kimberly was diagnosed with Stage 4 lung cancer which eventually spread to her bone marrow and her liver. She did chemo, which wasn't enough. She unfortunately passed on November 5, 2022 at 3:09 am.

She had moved around alot growing up. She was a creative person. She always loved quilting, sewing clothes for her grandchildren, and made Barbie dolls every year for Christmas for her granddaughters. She was alway a very outgoing person and she had a unique personality. Always had jokes up her sleeves, not a day goes by she wasn't cracking jokes. Kimberly was hard on the outside but on the inside she had a very good heart. She was always doing her best to support her family even when times were rough. Her favorite thing to do was spend time with her grandkids as much as she can. She was always on her feet and never let anyone do anything for her. Kimberly was very much an independent person.

She has a daughter who stays in Independence, MO with 3 of her grandkids.

She also has a son who stays in Clearwater, Florida with one of her grandkids. She is survived by her little brother John Seever, Gower, Missouri. She is survived by her two children; Crystal Dawn Bauer, Independence, Missouri; Kenneth Lee Bauer, Clearwater, Florida. She also is survived by her Four grandchildren; Austin James-Wayne Belcher, Esperanza Jolie Ortiz, Yadira Michelle Ortiz and Gavin Lucas Bauer. She had tons of friends and family that cared for her. She will always be missed and never forgotten.

Tribute Wall

TD

“*Kim and I attended High School together. I remember the first time I saw her in school. She was flirting with a guy named David during a class lecture and I was getting annoyed. Afterwards when I actually spoke to her I realized this was someone I wanted to be friends with. She was fun, a little wild and crazy (in a good way), and full of energy. We remained close through high school but lost touch shortly thereafter. I am so grateful to have found her again on Facebook in the last few years so we could reconnect. My heart is reaching up to Heaven to give Kimmie a hug and tell her that I will always love and miss her. Be at peace, my friend.*”
