“ Lisa was a great wife, mom & friend. She loved her children to the moon & back and they, too, returned that love to a mother that meant everything to them. When my son Sean, graduated from high school, she helped him get a job where she was working. After Sean passed away the family was there supporting my family during our tragic loss of Sean. I know how hard the loss of Lisa will be on her family, but I hope the wonderful memories they shared over the years will give them comfort in the very sad days ahead. Love and prayers sent to all of you, Betty Yochim & family
