“ In our teens Mike and I shared diveing stunts together at Holiday Hill pool. He moved to Woodson Terrace and we became close friends. After high school we moved apart. Many of our adventures still can not be told as I am not sure they have stopped looking for us. He always had that smile the girls loved.

“ We all loved Mike so much! It was a big event when he would come in for holidays and Birthdays. He was especially close to our Mother and Father. I have so many memories but the ones I will share He was such a worker, he sold newspapers when he was only 13 and when working for G.M worked 12 hours days at times. I was divorced with a little one and my old car needed repairs , before he went into the Navy he surprised me and paid the car repairs! He had SO MANY good friends all over. Fondly remember his visits home especially to see Mom and Dad as their health became a concern. Wish I would have know his health had deteriorated but he never let on. I pray he's at peace now. Love you always little bro💕💕

Something reminded me of Mike today so I looked him up. Sad to see that he has passed (as well as Eddie). What I remember the most was his big black car.... He and my boyfriend at the time pretended to drag race with him and just as we started his car crapped out...it threw a rod. I remember feeling so bad. He loved that old car. I think it was his first. Rip boys!
