“ Rolland was a very wonderful partner and was willing to help father a child that wasn't his and he was there for me when our son was born and when he passed away. Now you are up there with our son Gauge and you both were my favorite guys and you both will be forever missed and loved. I love and miss you guys.

“ *The last time I was Rolland was at my house in Bryan, Texas. He was there with his sister Kathy, my cousin and his father Phillip, my uncle. Its been a few years ago. We had a good visit and enjoyed being together. I had given him some shirts and didn't think anything about it. He had a Harley Davison tee on and took it off gave it to me. He knew I liked bikes. The shirt was too big, but I wore it anyway and finally, wore it out. I still used the tee as a draw liner because I didn't want to get rid of it. It was the only thing I had that belonged to Rolland. A few months ago I let the shirt go. Some how those that loved him will do the same, let him go, but keep all the memories, the good times. Of course, I will never look at another HD tee without thinking of him. The circle will not be broken. Love you Rolland.*
