“ My grandpa was the strong silent type however he had a very funny and ornery side to him. I'll miss his smile most whenever I told him to say cheese for the camera, and he would give me his classic cheese face. He was also a great cook and baker and growing up when we stayed over I looked forward to his amazing breakfast he always cooked us. Every Christmas he smoked a brisket and I looked forward to it all year long.

My fondest memories growing up with grandpa were going fishing with him and exploring at the lake. He loved fishing and he loved looking for cool rocks.

I will miss his orneriness and also his gentleness. He was a man who loved his family, especially his beloved dogs, and enjoyed the simple things in life. He will always be loved and cherished. Rest easy papa.
