“ Vanessa was mine and my brother and sisters sitter when we was just little ones. She was more than just a sitter though...she loved us like we were her own children and we loved her just as much! I remember when I was little I hated oatmeal so she would crumble bacon up in my oatmeal to trick me into eating it. She was such a wonderful loving woman and we will all miss her!!

“ Mom told me 1 time she was going to kick my butt but I told her she couldn't do it. Boy did she show me. When I walked passed her not even thinking she got her short butt up n with out holding on to anything she kicked me butt. Which shocked me n to this day I can't believe she did it. I love u mom I will miss u always

“ She came to mine and Shawn's wedding even though she really should not have taken the long drive. How she claimed my daughter like a grandchild and was so proud of her and all of her grandkids.
